

A close-up photograph of a fluffy, light-colored cat's face, looking slightly to the left. The cat has dark stripes on its forehead and ears. A large, torn-edged, reddish-pink speech bubble is superimposed over the cat's mouth area, containing the text.

Not sure
how to buy
Kitty? ☺

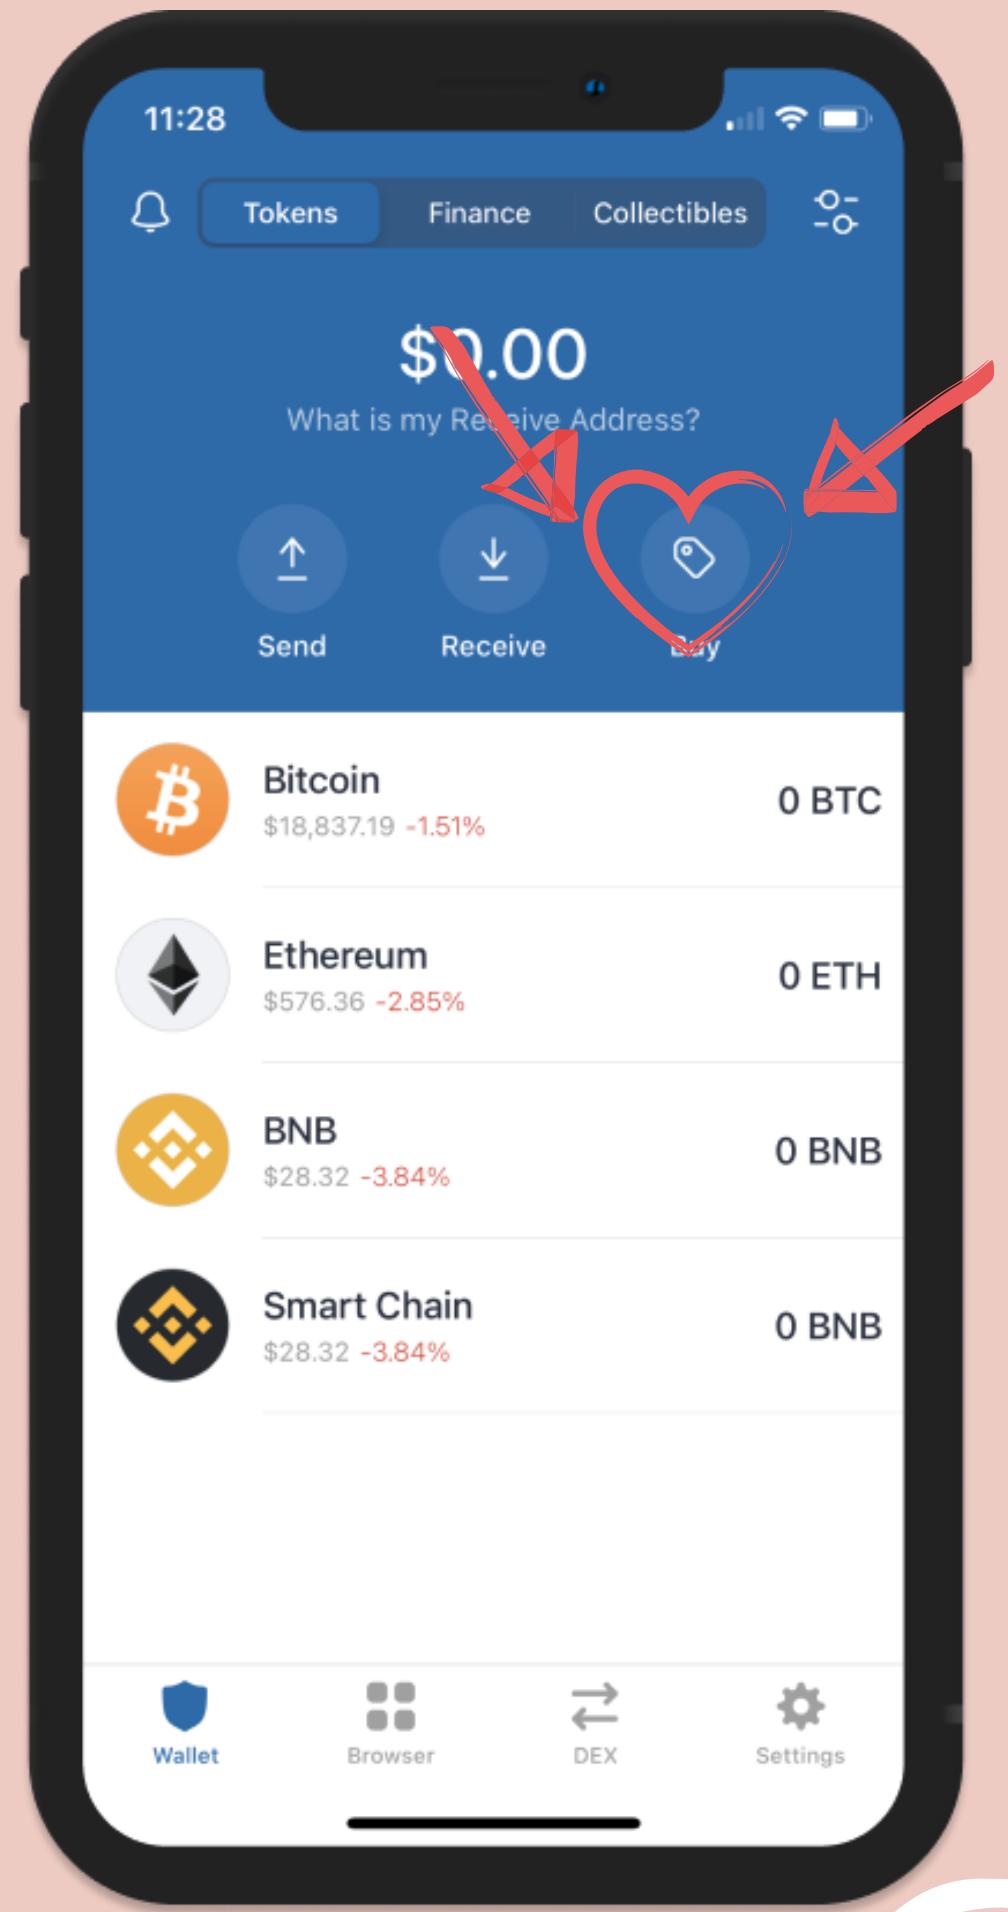

Step 1

Download the
Trust Wallet app

Simply follow the verification steps until you have a screen that looks like this!

Click 'Buy', and it will show a list of currencies. Find 'BNB' (near the top), and select to continue. It has to be BNB to then invest in MyKitty, so make sure you don't accidentally click a different one!

Step 2

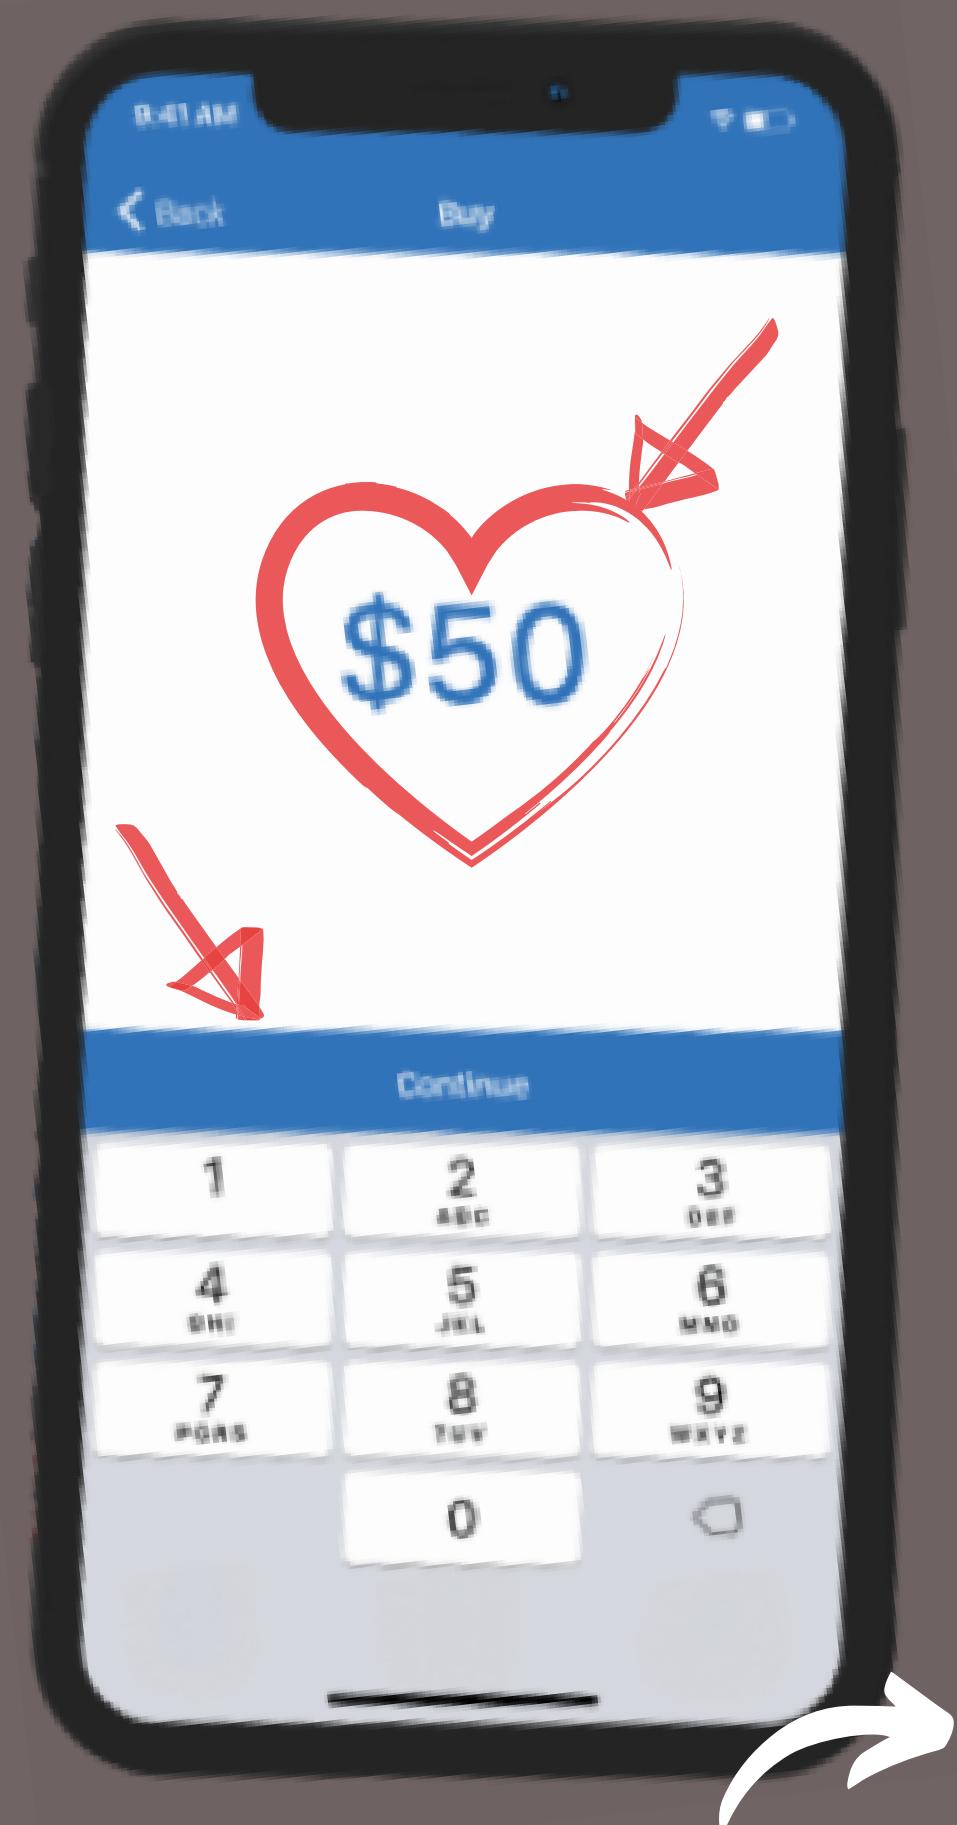

Buy some BNB

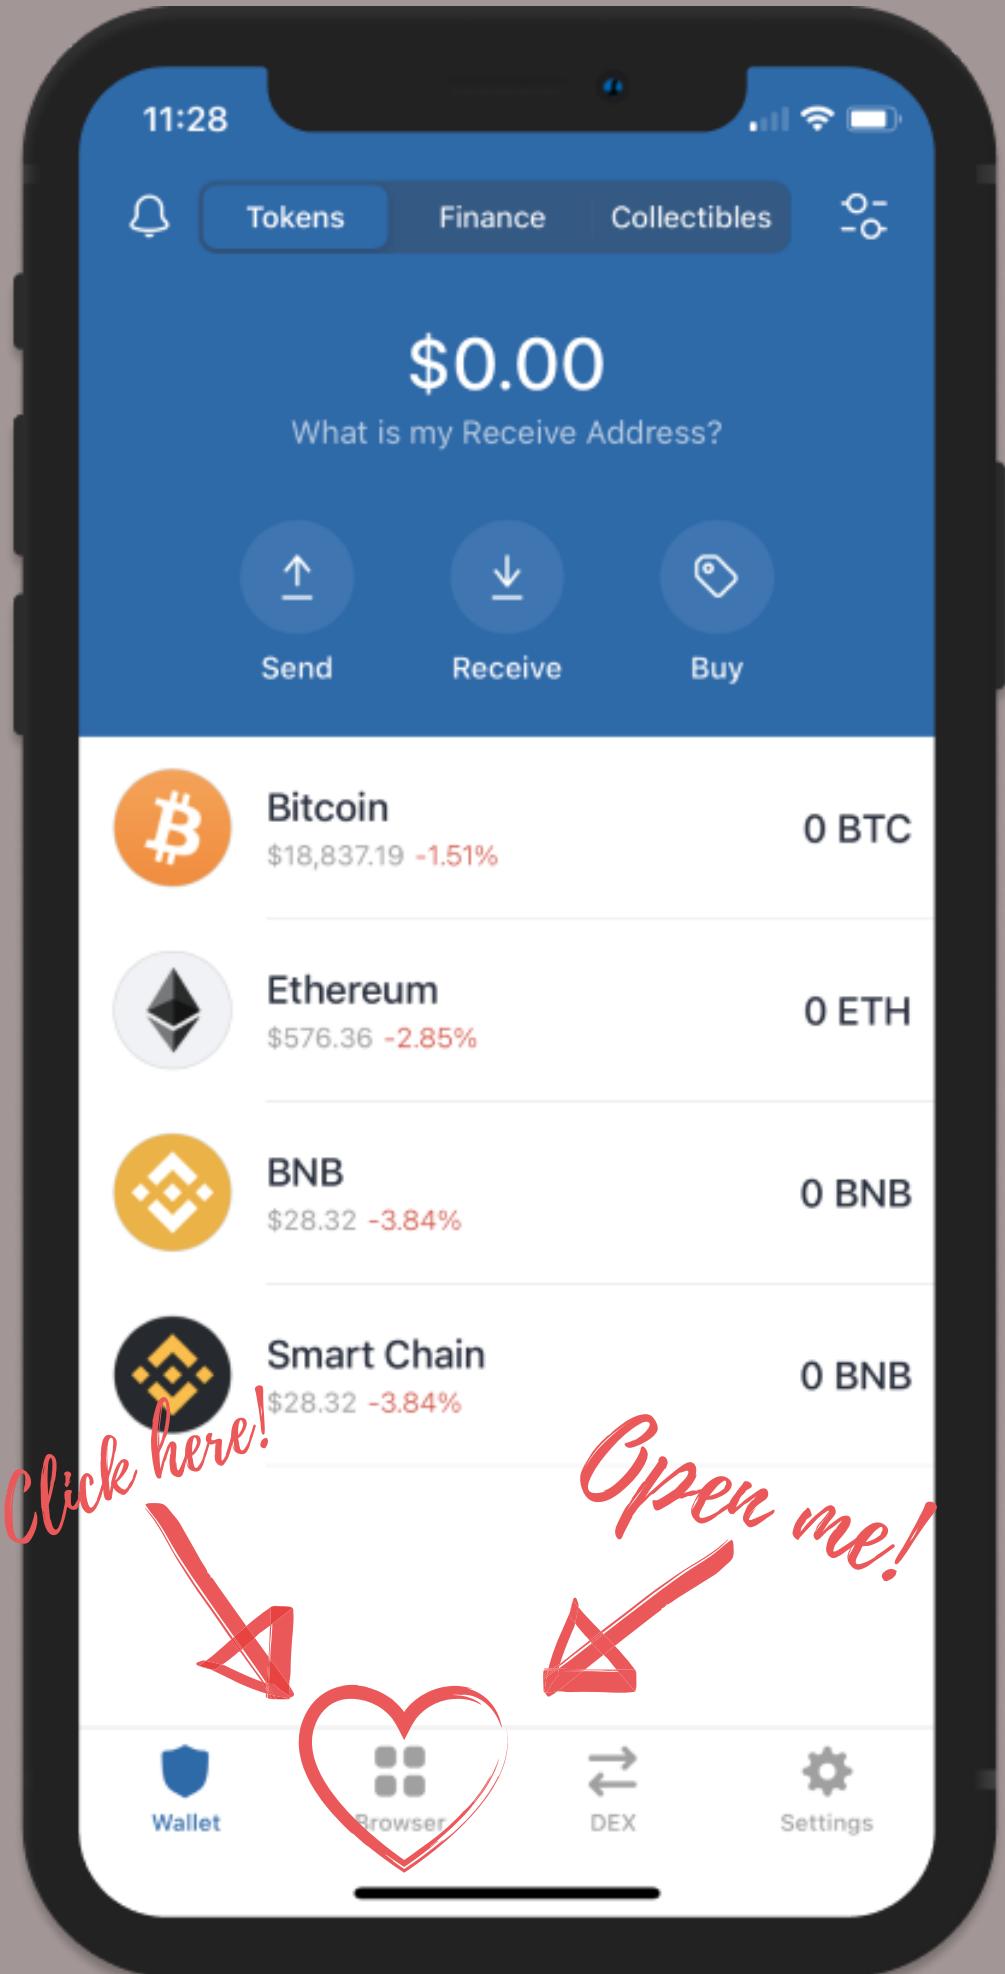

Type in the amount you want to buy, hit 'Continue', and the next screen will require you to put in your credit/debit card details to confirm purchase

our advice

Only ever spend as much as you can afford - don't put yourself under any financial strain for the sake of crypto

Be careful who you're sending money to! Are they pressuring you? Is the situation making you feel uneasy? Back out! Chances are, it's a scam

Step 3

Open DApp browser

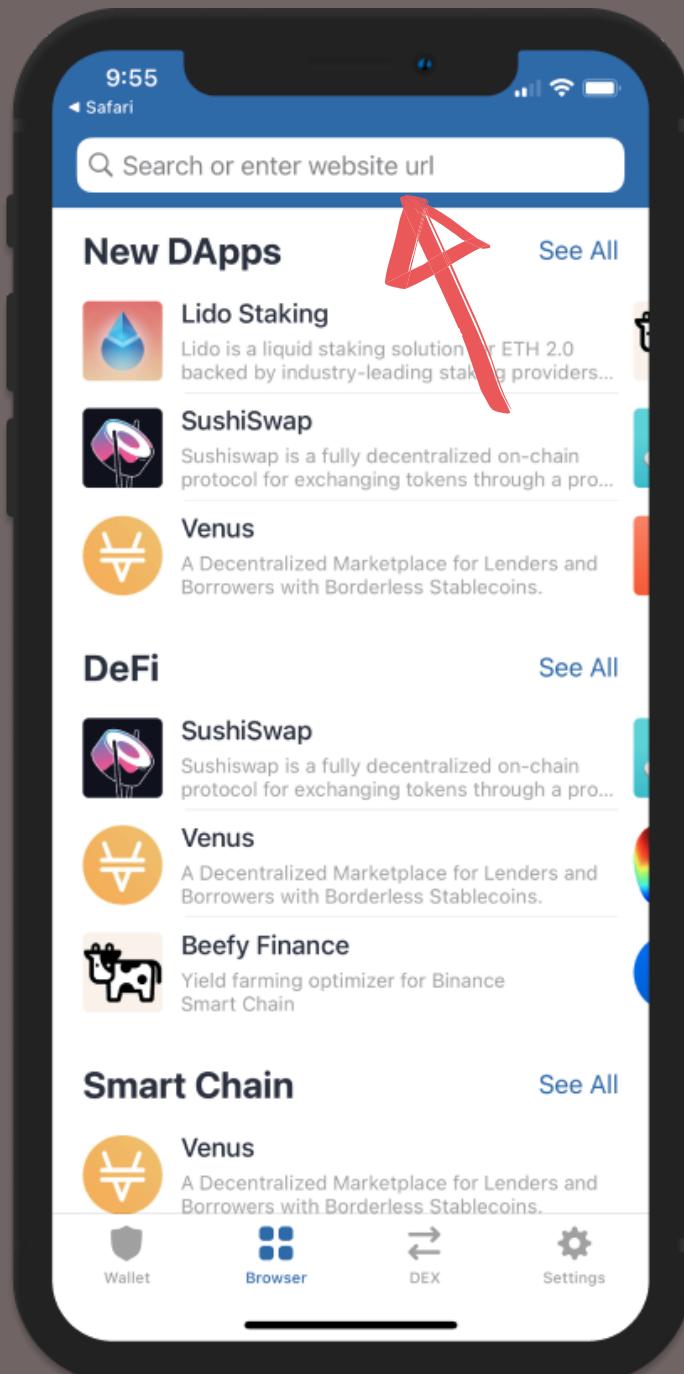

You now have BNB! Congrats on your purchase! It will show your balance for your wallet where in our example it still says \$0.00

For iPhone users, the DApp browser won't show at first. Open up Safari, and type:
`trust://browser_enable`
Hit 'Open', and when you go back to Trust Wallet, the browser will show!

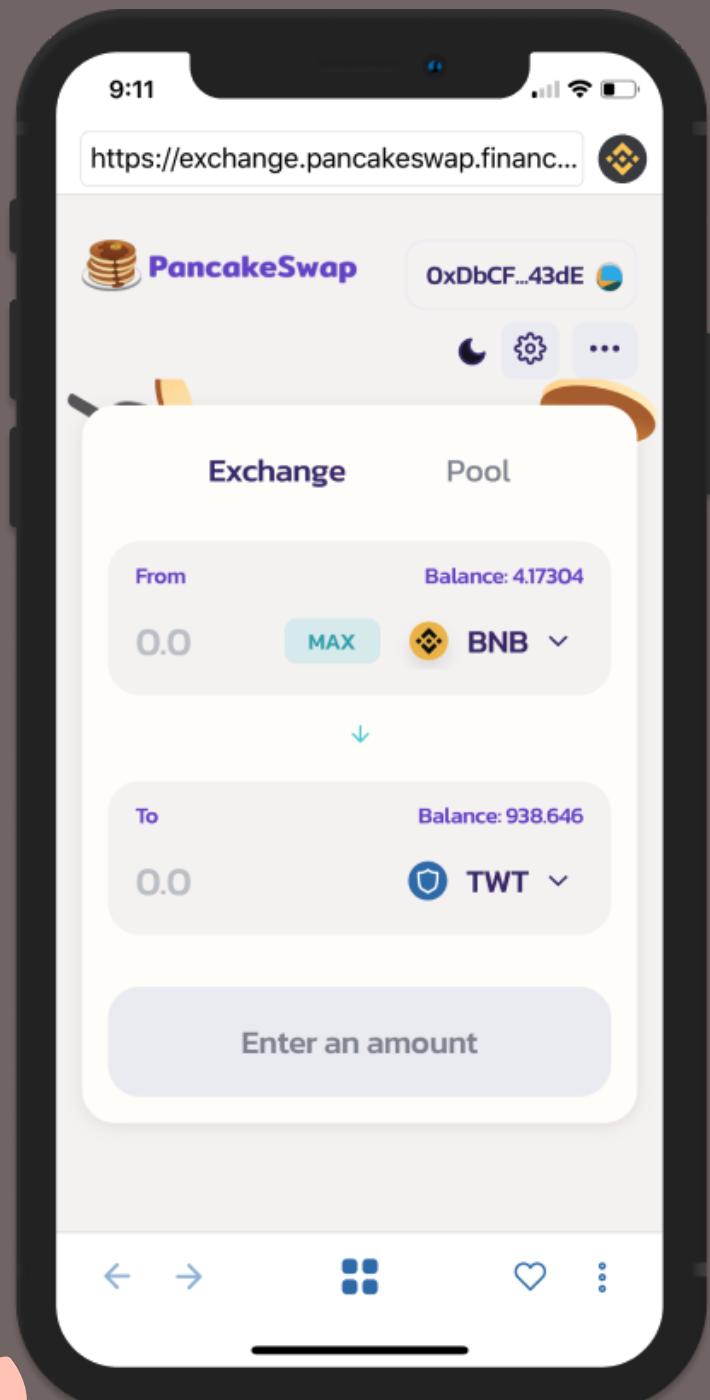

Step 4

Search for Pancake Swap in DApp browser

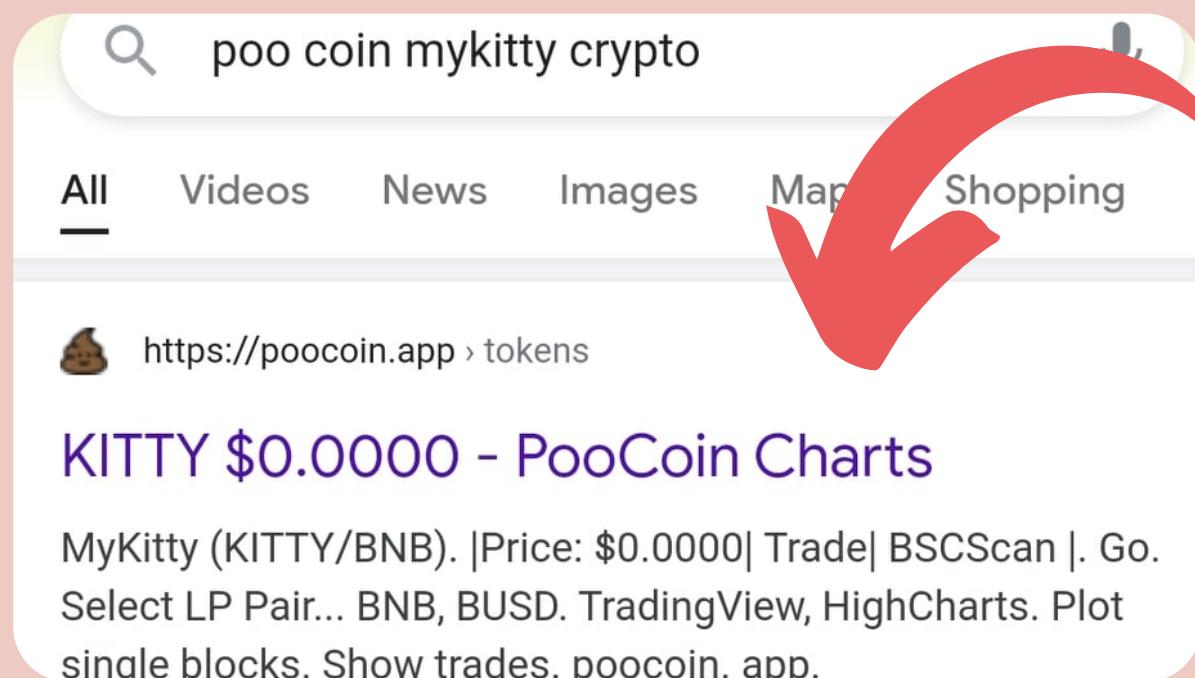

The DApp browser
will open this screen

Search for 'Pancake
Swap' in the
searchbar to get to
this screen

Step 5

Copy the link for the MyKitty coin so we can swap the BNB for Kitty!

a.

We need to find the link for the MyKitty coin so we can trade our BNB for it on Pancake Swap - so start by opening Google and search for the following:

PooCoin MyKitty Crypto 

b.

Click on this site

which will take you to
the following screen...

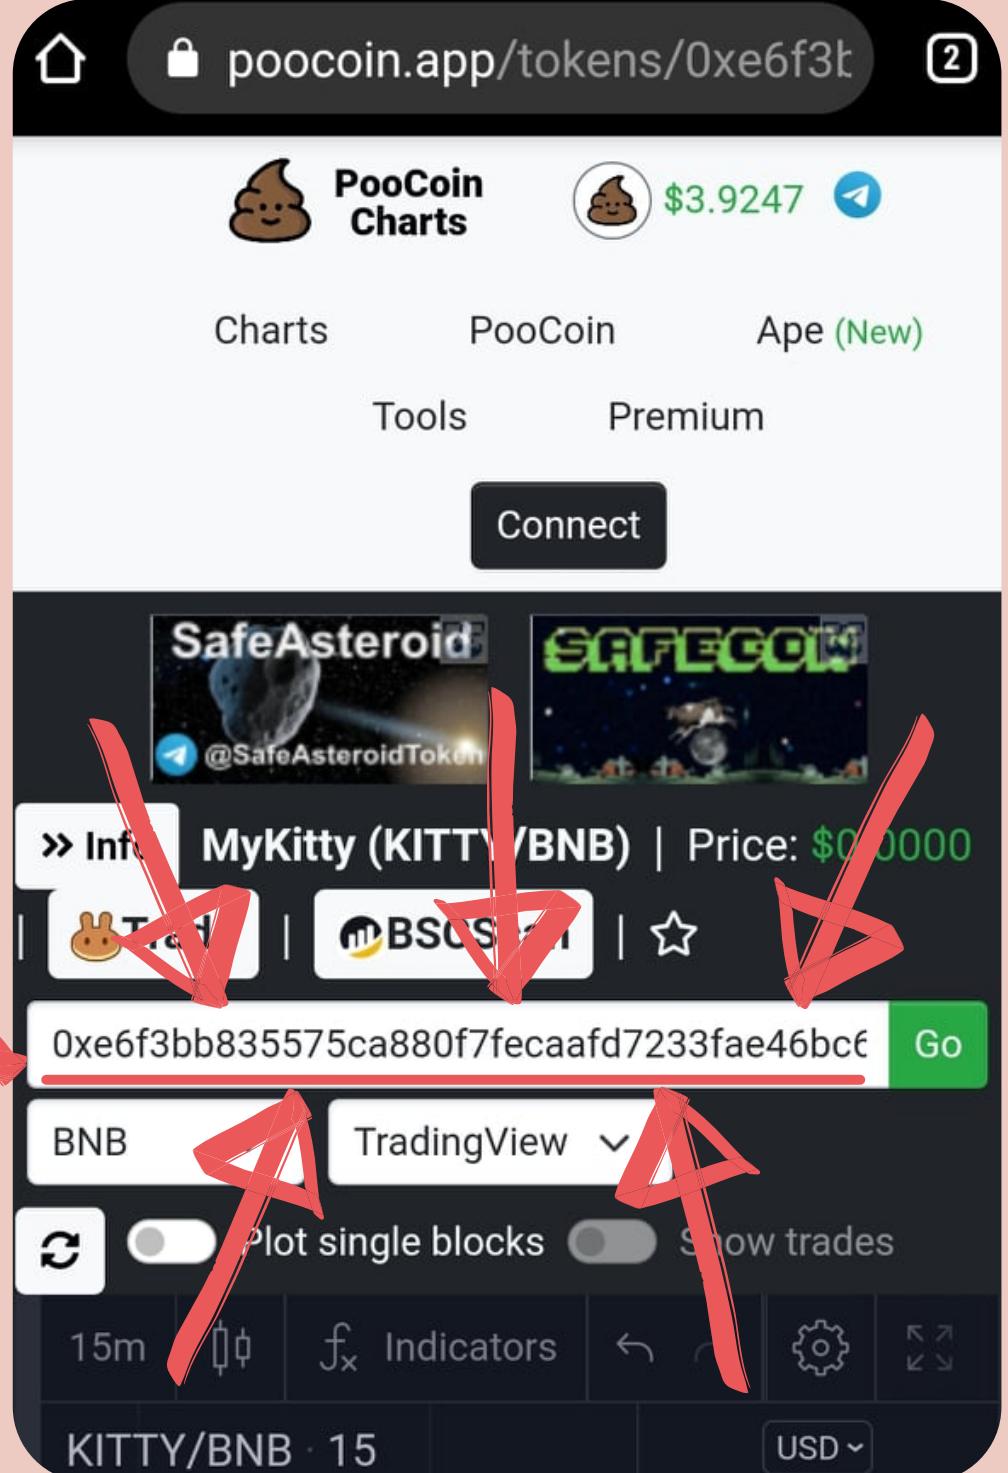

Step 5.5

Copy the link for the MyKitty coin so we can swap the BNB for Kitty!

This can look overwhelming at first, but we're just on this page to copy this link!

Press and hold or double-tap to highlight the full link, then hit 'copy'

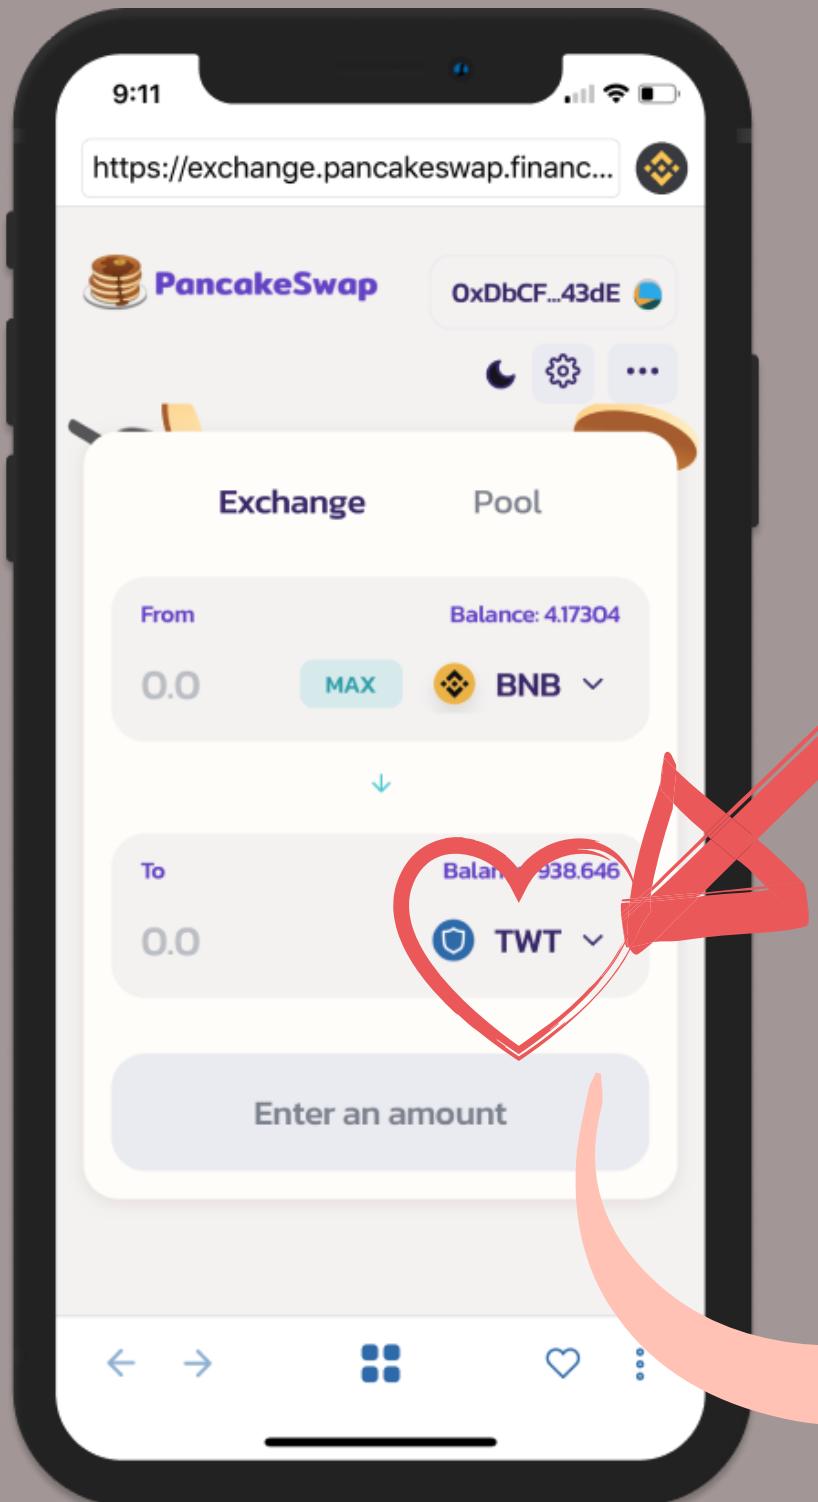

Now we're going back to the DApp browser in Trust Wallet to get back to Pancake Swap!

easy!

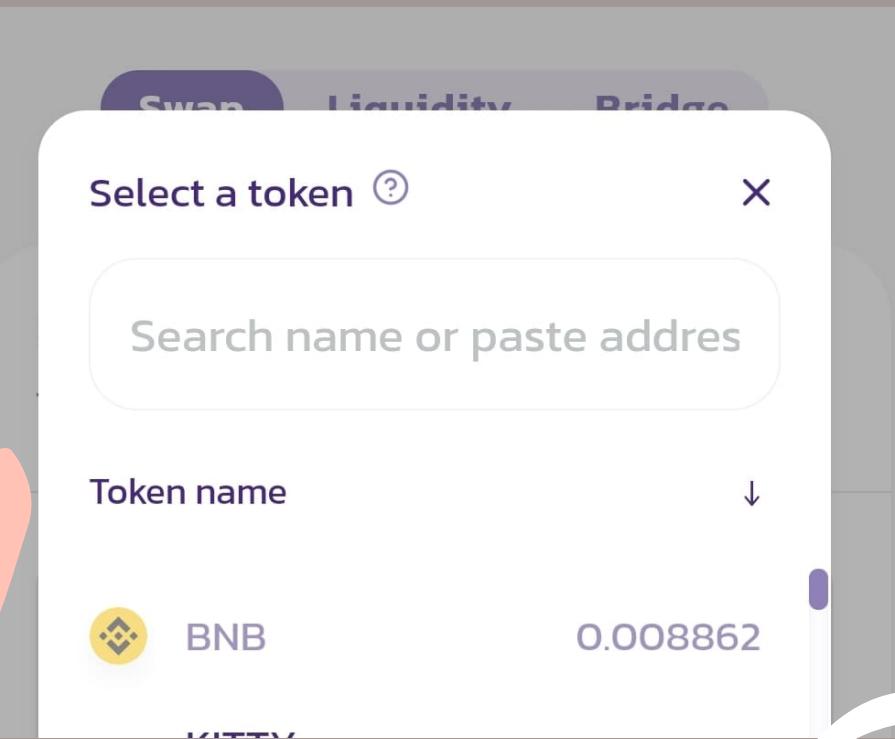

Step 6

Swap your BNB for the MyKitty coin: KITTY

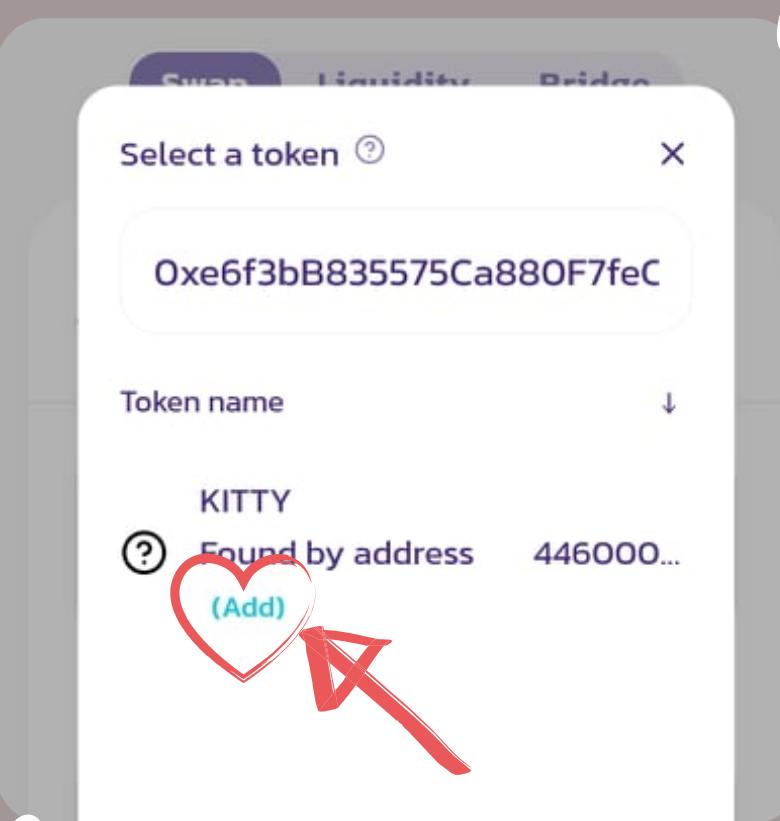

Leave the 'From' as BNB, but click where it says 'TWT' to open up a list of currencies. This is where you need to paste the link we just copied!

It will look like the search bar below

Step 6.5

Swap your BNB for the MyKitty coin: KITTY

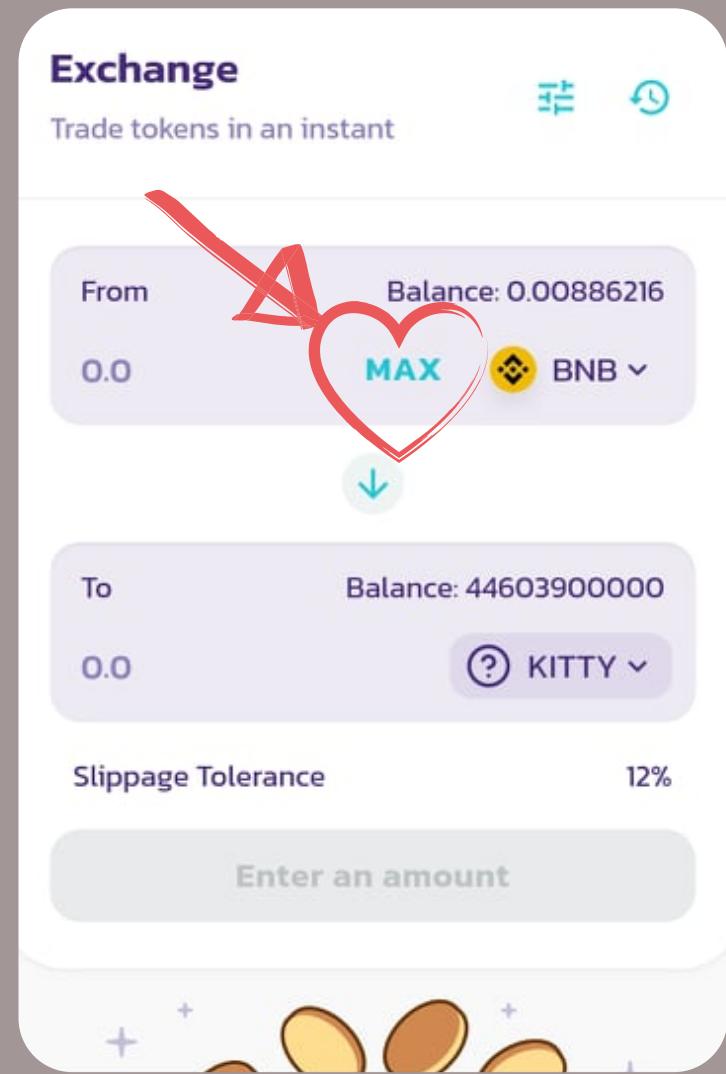

a.

Paste the link, and KITTY will be the only token that comes up. Before you click it, press '(Add)'. This will save KITTY to your list of tokens on Pancake Swap, meaning you don't have to copy the link from PooCoin next time!

b.

Now that you have 'From' as BNB, and 'To' as KITTY, you can enter the amount of BNB you want to invest into MyKitty

If you're like us, you're going to want to press 'MAX' here. This puts all of the BNB you own into MyKitty!

Step 7

Set slippage to 11%

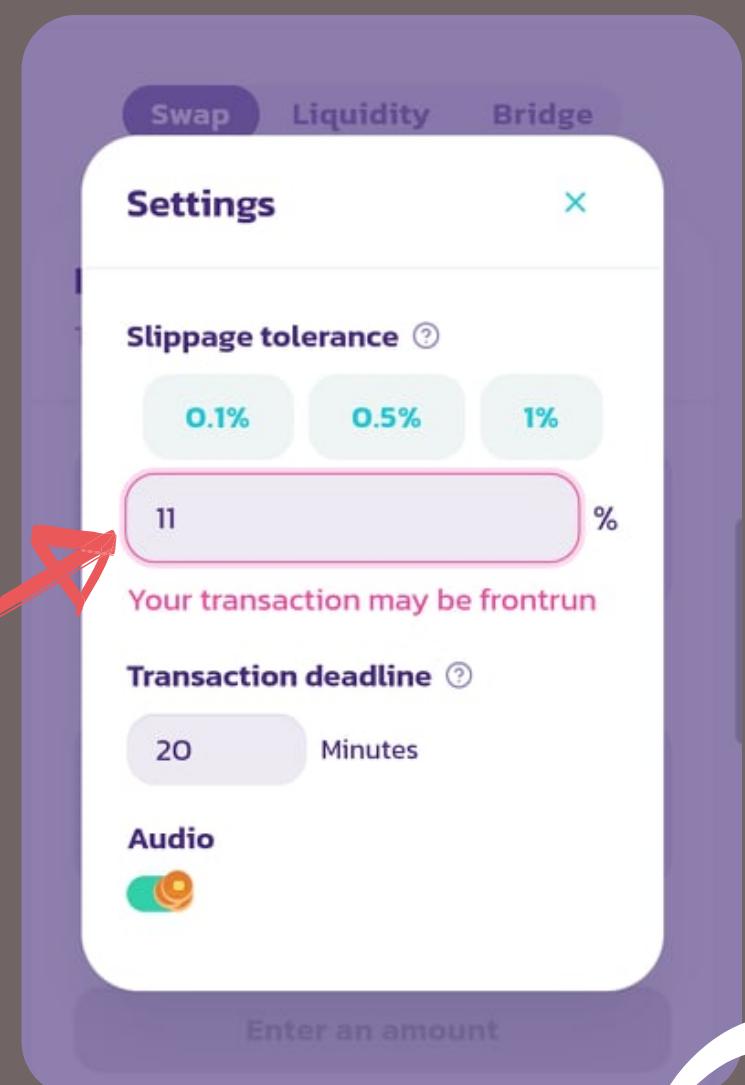

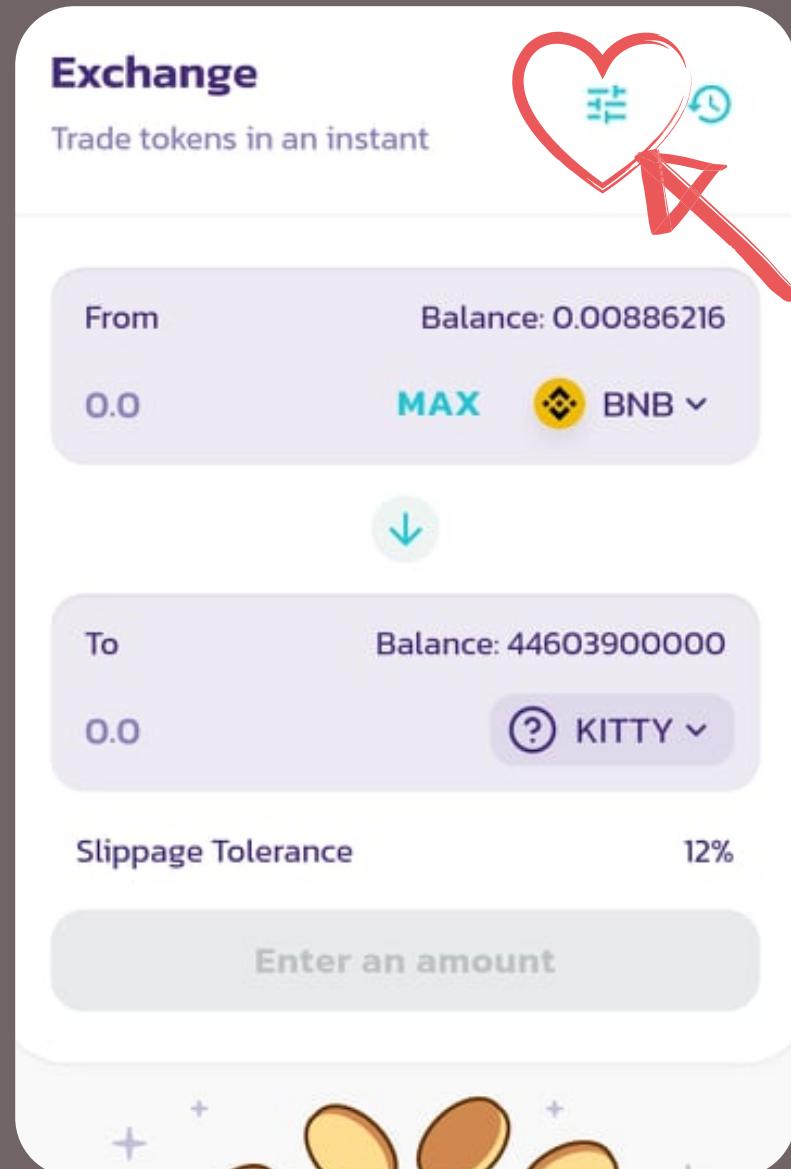

a.

Before we complete the exchange, press on the 'Settings' icon at the top right of this window

b.

The slippage tolerance must be set to 11-12% for a transaction to take place with MyKitty, so enter '11' or '12' here, like shown

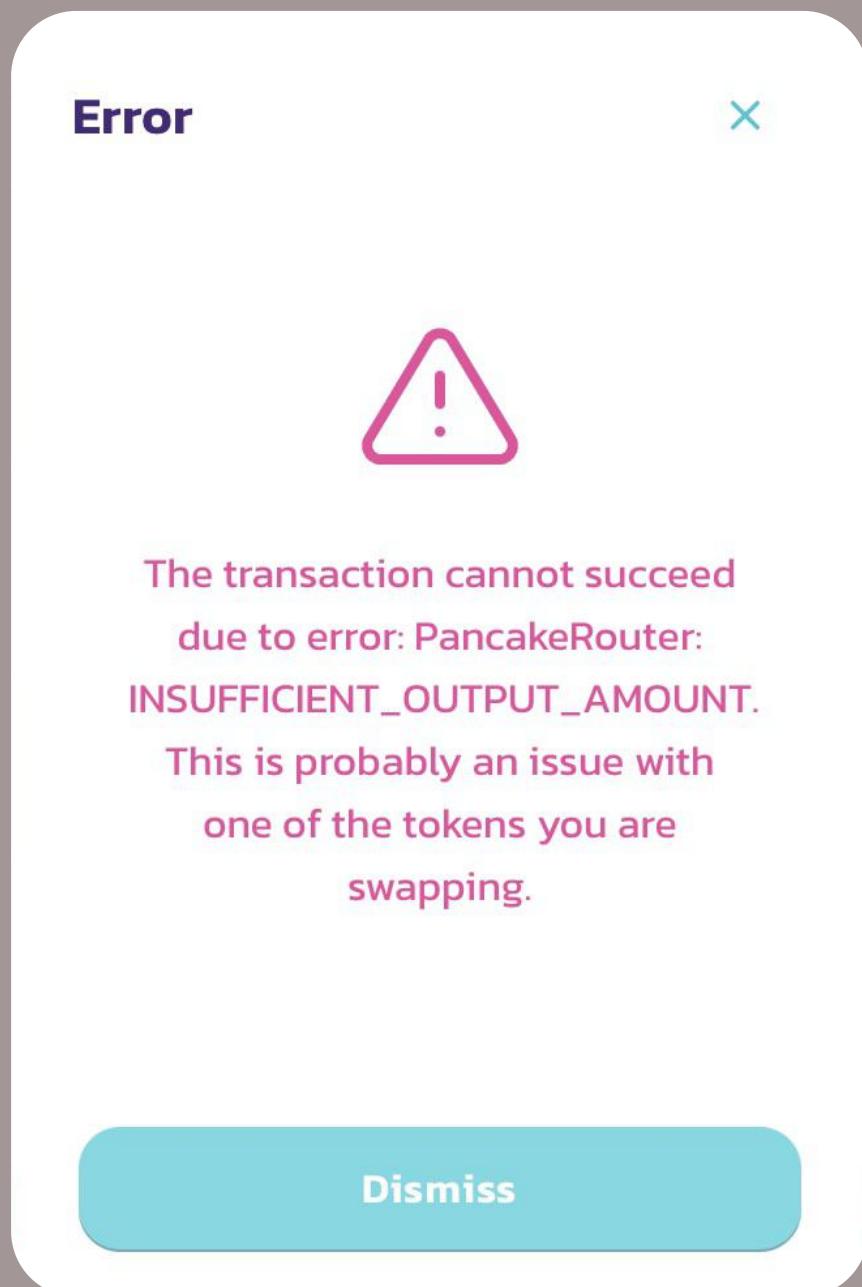

Alter transaction deadline to your preference, or keep as default if you don't mind when it goes through

Step 8

Fixing potential errors

Don't worry if an error message like this pops up! It will be because of either of the following reasons;

1

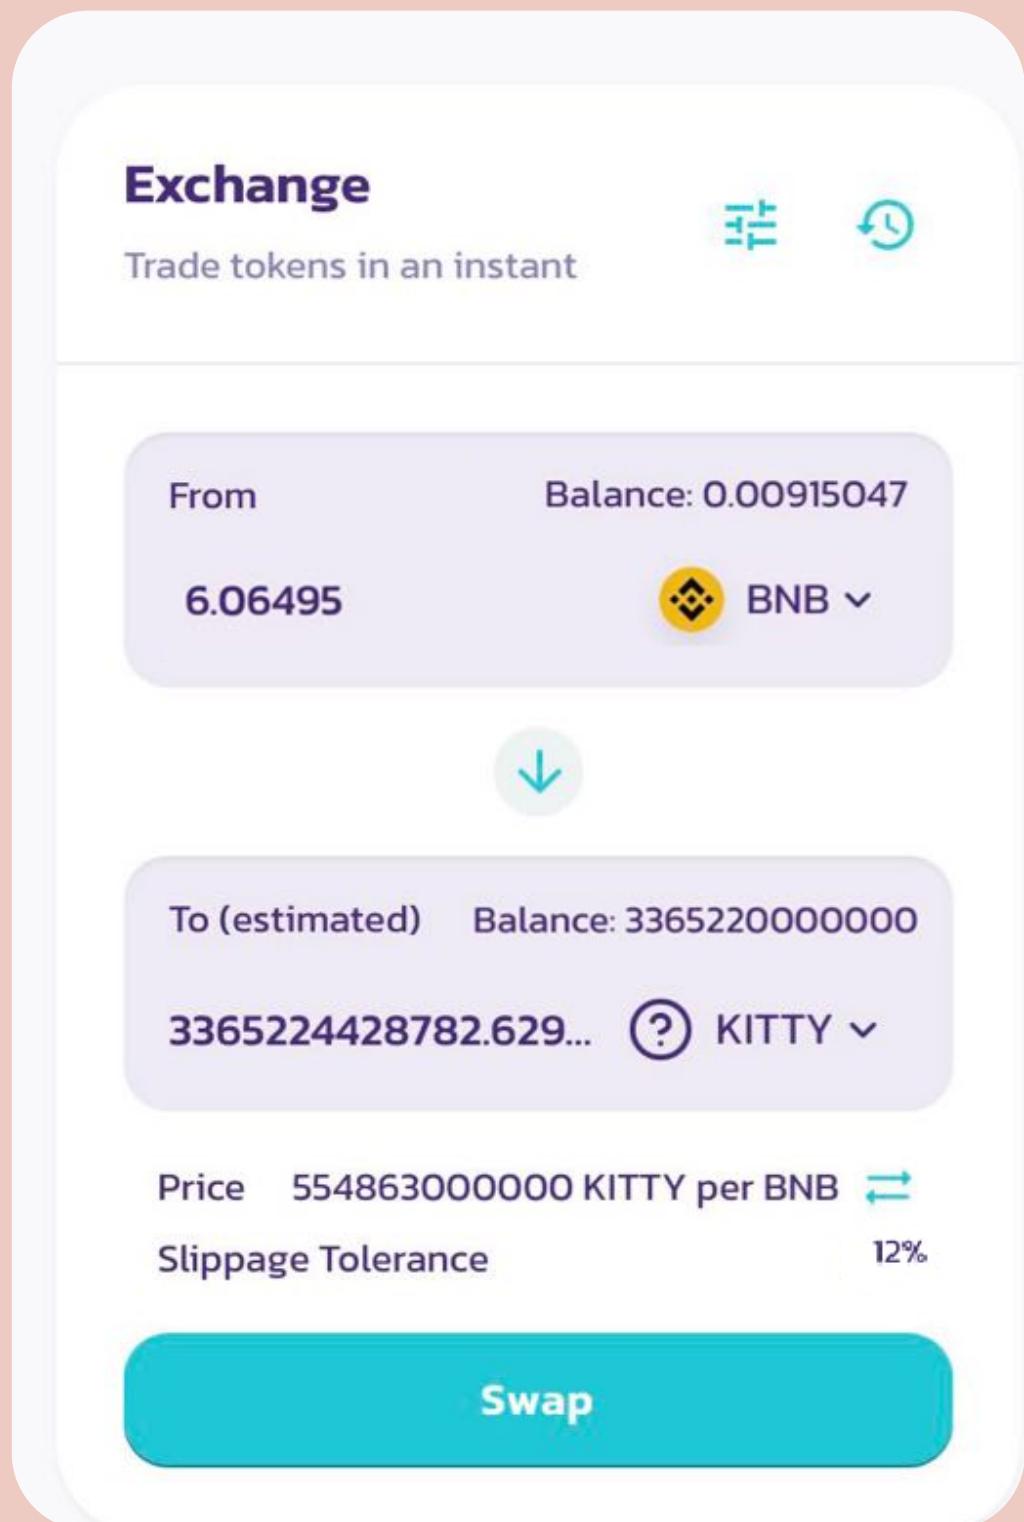

The slippage fee wasn't set to 11%. Repeat Step 7 to fix this issue!

2

There's a decimal point at the end of the KITTY value on the exchange window. Remove the decimal point from the very end of the number, and this error will be fixed!

Step 9

Finalise the exchange!

The moment you've all been waiting for! With everything in place from the previous steps, we're ready to click 'Swap', which puts the money into MyKitty - making you a Kitty holder!

With great power comes great responsibility! Enjoy knowing you're a MyKitty holder, but always take care in the crypto space and avoid those scammers.
